

Overview

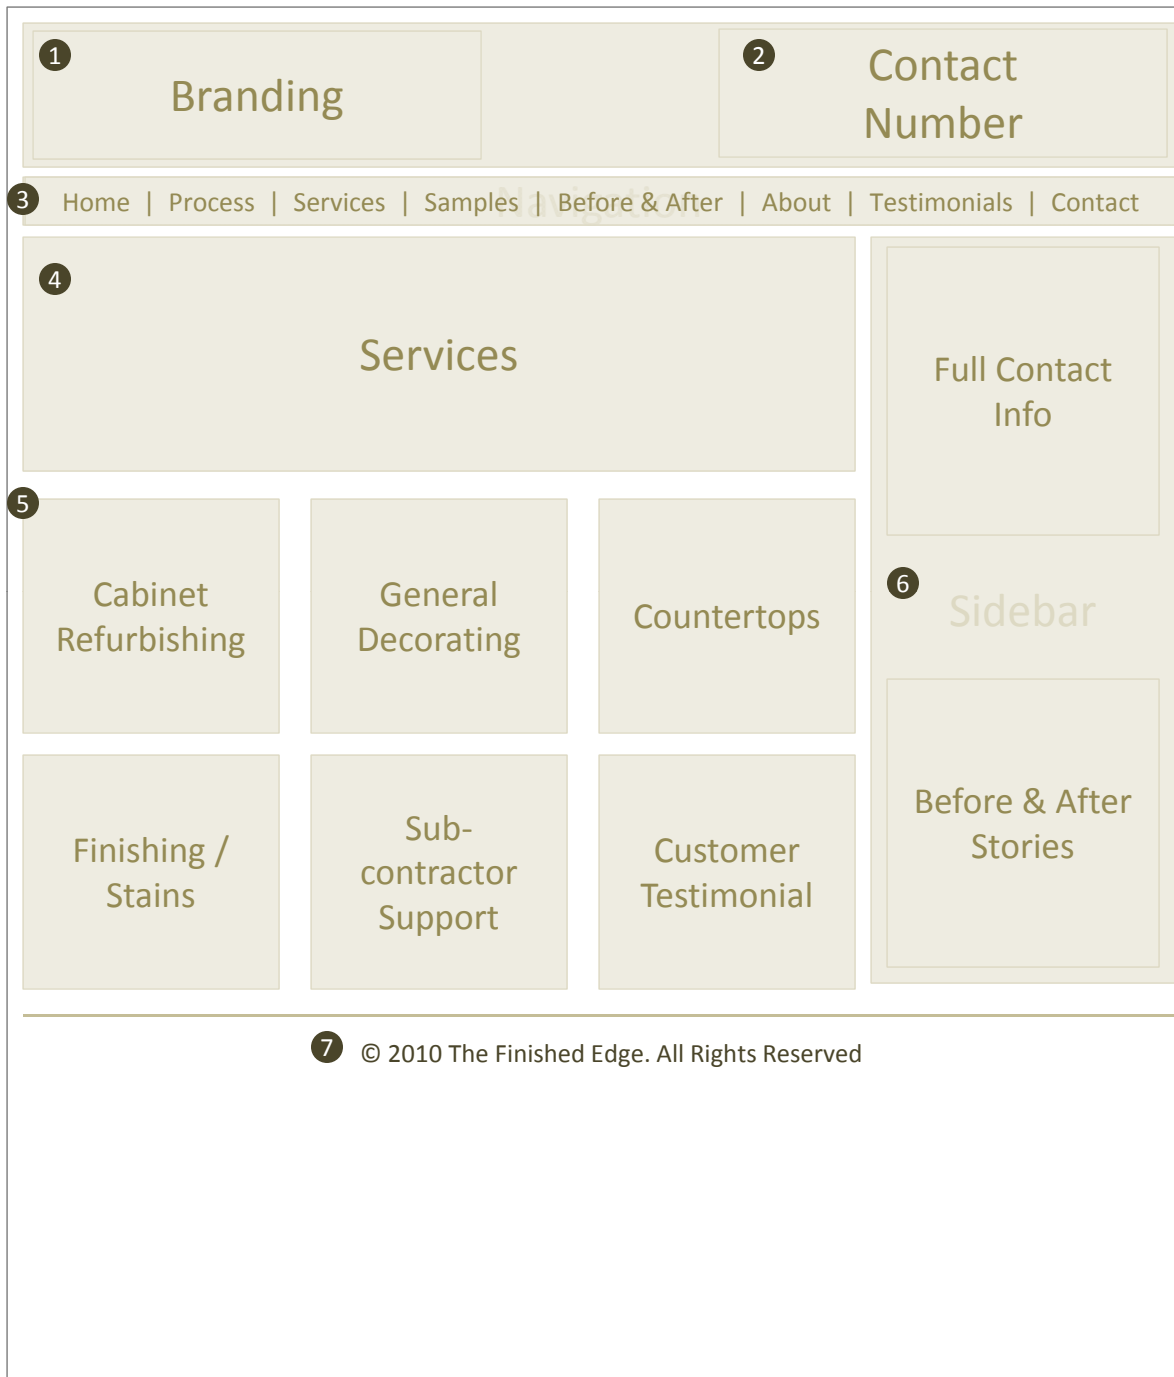

The homepage is your main entrance to your website.

Notes:

The purpose of the homepage is to drive those that arrive on this page to navigate deeper into the site.

	Type	Element	Description
1	Graphic	Logo	The logo will identify what your business represents on every page.
2	Text	Contact #	Your phone number will be prominently displayed here on every page.
3	Text	Navigation	Global navigation provides the primary method for accessing sections of the site.
4	Graphic	Feature Panel	This area can be static or animated, displaying multiple imagery, which features/links to sections of the site.
5	Panel	Our Process	Prominent promo panel highlighting your unique refurbishing process
6	Panel	Services	Duplicate navigation to the various services you offer.
7	Panel	Testimonial	Highlights a customer testimonial. Can display random testimonials if we have quality & quantity.
8	Text	Footer	Legal statement.

Overview

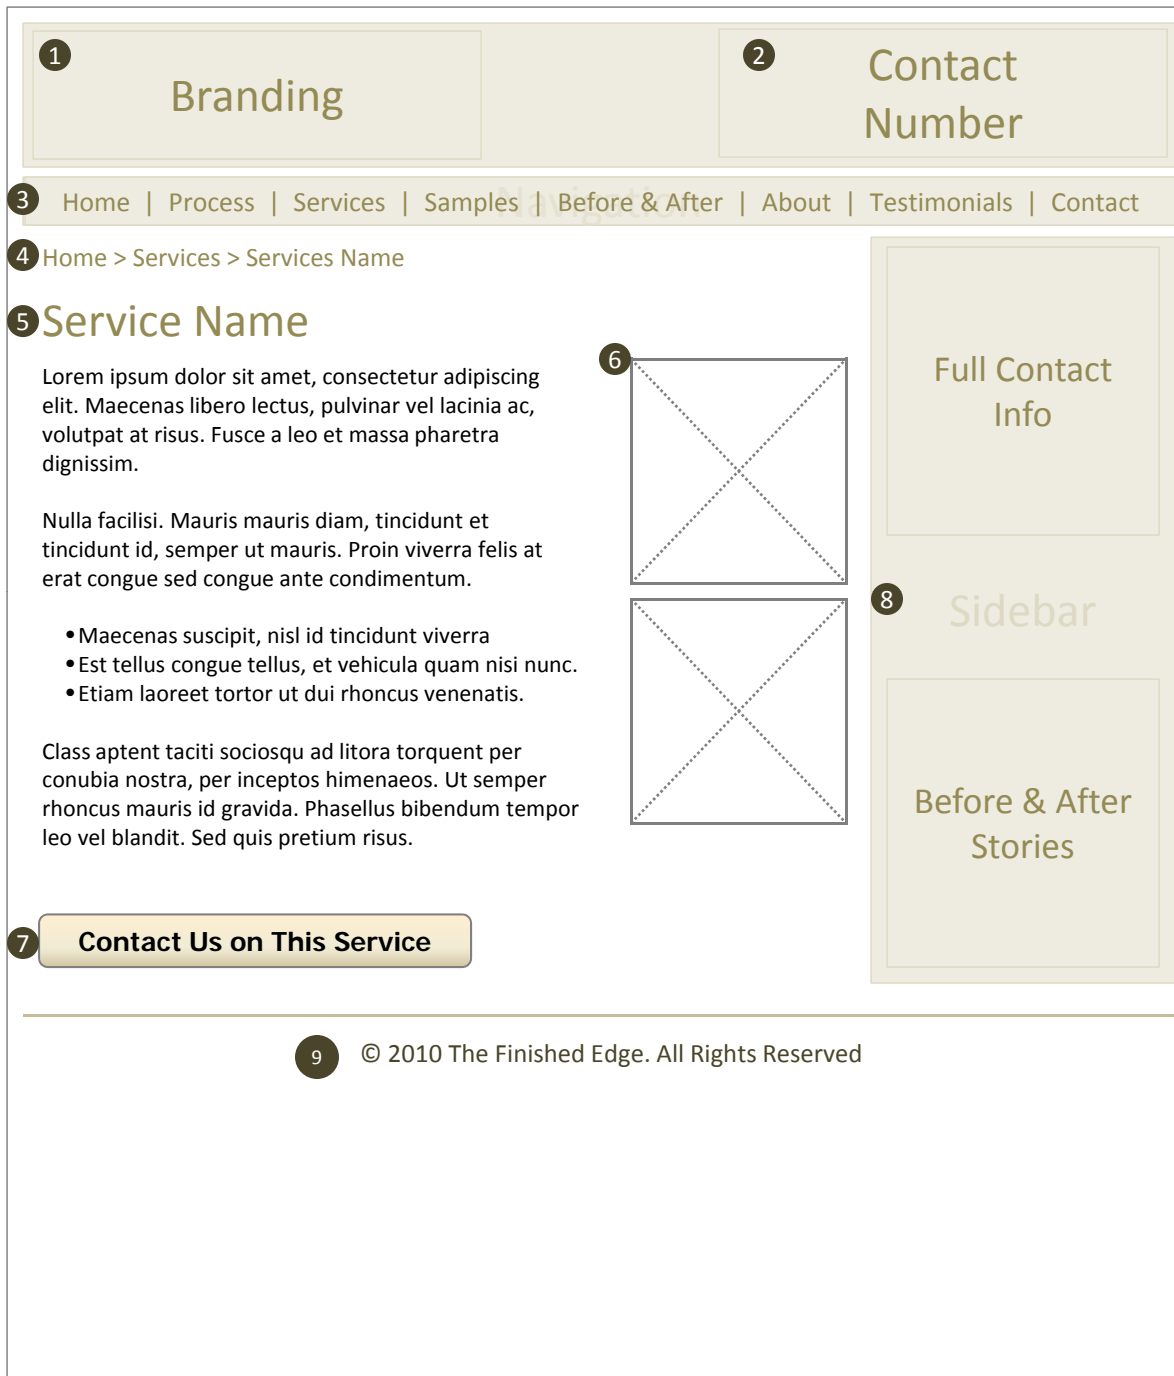

A sectional page is a page that acts like a homepage for a particular section.

Notes:

This would include Our Process, Services, etc.

	Type	Element	Description
1	Graphic	Logo	The logo will identify what your business represents on every page.
2	Text	Contact #	Your phone number will be prominently displayed here on every page.
3	Text	Navigation	Global navigation provides the primary method for accessing sections of the site.
4	Graphic	Section Heading Panel	This panel would contain section-related imagery and text.
5	Panels	Services Panels	This is a box listing of your services. The services can also be presented in a horizontal layout, which would provide more textual descriptions of each service upfront.
6	Panel	Sidebar	The sidebar offers site-related content.
7	Panel	Footer	Legal statement.
